

## Hash Report

Run 267 – Mire House, 4<sup>th</sup> June 2017

Hares – Huggy & Slasher

### “Mirehouse Marathon”

After advertising Huggy & Slasher’s coming Full Marathon as far afield as Lancaster and Cockermouth, we expected record attendance for the expected triathlon of lake swims and Wainwright summits, but very few came.

Maybe the sunny weather made hashers believe that this was no longer Cumbria and could not be home, so they stayed away.

After a lengthy explanation about hash rules (there are no rules) all hashers set off up a very long uphill false trail and then down to an early beer stop at the absent Rent Boy’s house.

Instead of a beer stop we headed up hill in the opposite direction to an early summit with brilliant views of distant Wainwright fells.

The view was so good that we paused for a full half hour while searching for a non- existent trail.

Somewhere in the woods there was some flour, so On On through the dense woods for up trails and down trails and then finally a very steep down trail.

Then On On to the important business of the day: Beer and Food at the Sun Inn, Bassenthwaite, a favourite haunt of us all.

On On to the next hash.
