

## **Hash Report**

**Run 272 – Embleton Church, 5<sup>th</sup> November 2017**

**Hares – Rocky Rock & Plum Tart**

A small, but depleted, elite pack comprising 2 Hares, 2 Runners and 2 Walkers gathered on a crisp wintry morning, in the lay-by outside the church – fortunately without a congregation, as it would have made parking tight – but they could have also helped out with routefinding!

Rent Boy luckily identified the route, heading towards Beckhouse, and then cross-country to Laurel Bank, High Side and Jenkin, before doubling back on the back road past High Side once again. The hares tried to get us to follow a few false trails up the fellside, before the true route was spotted by G-String, as well as late arrival Highway – who also joined us at this point, prior to running across Embleton High Common, above Tom Rudd Beck towards Wythop Moss. Fortunately, we didn't have to cross the Moss, but doubled back on the opposite side of the beck, prior to arriving at Green Lonning. A quick descent, prior to another cross field return to High Side Farm – and the ON IN.

The walkers arrived a little later, having decided to enjoy the remainder of the runners' route – having missed the walkers' route detour to the finish! The dog was obviously following the runners' trail!

A short, but excellent route, prior to adjourning to the newly re-opened Wheatsheaf Inn at Embleton.
