

## **Hash Report**

**Run 275 – Great Wood, Borrowdale, 4th February 2018**

**Hares – Huggy & Slasher**

A good turn out on a crisp wintry morning saw a fair number of hashers gather in the Great Wood Car Park. After a number of false starts the ON ON came heading up the fellside towards Walla Crag. Expecting the worst from Huggy, on encountering a cross at Rakefoot next to a bridge a few hashers - expecting that we were supposed to cross through the water set off up towards the summit. Instead – just to keep us on our toes, the trail reversed followed a minor road down towards Castlerigg farm. We then followed a picturesque downhill path, through Springs Wood on to Springs Road and along a path into Castlehead Wood. Most hashers followed the optional diversion to the summit – where great views were to be had – both looking down Borrowdale, and back up Bassenthwaite Lake.

The pack then retraced their steps back downhill, before heading across the Borrowdale road, and then skirting round the back of the Theatre by the Lake towards Friars Crag. We then followed a path around the lake allowing Huggy his customary dip – this month in Derwentwater - before heading back to Great Wood. Following a search for Highway – this was followed by a pleasant lunch in the Pheasant on Crosthwaite Road.

An enjoyable winter's hash in Lakeland!
